My dear MacDonald! Do not ascribe my
silence and even the laconic character of
this card but to my suffering state. Since
two weeks I cannot find myself. Sleepless-
ness to the worst degree. I seem to be
indeed overworked since years. If that will
not improve I do not know ~~if~~ what will
become of the American undertakings.
When do you leave Egypt? and when
will you be here in Budapest? I and my
wife are verily enjoyed in advance to have
our hope realized. In a few weeks we
move to a village lodging, only an electric
hour from the town. When you come, you must
stay at night in the town and pass the whole
daytime ~~for~~ with us in the little garden. But
you must come before the Copenhagen Congress.
(second half of August) where I must take
part as delegate of our University. Perhaps
on my journey with this
see Dr. Gathouda (Berlin)

to Cairo to see his brother
Jerusalem, his home. Many
